

Revision date: 2014/07/15 Page: 1/8
Version: 3.0 (30322583/SDS GEN US/EN)

### 1. Identification

#### Product identifier used on the label

# Majestic Gold Mica #78

# Recommended use of the chemical and restriction on use

Recommended use\*: pigment

# Details of the supplier of the safety data sheet

Distributed by:

Gold Leaf and Metallic Powders 6001 Santa Monica Boulevard Los Angeles, CA 90038 USA Telephone (800) 569-5323 E-mail: info@glandmp.com Website: www.GLandMP.com

#### **Emergency telephone number**

CHEMTREC: 1-800-424-9300

BASF HOTLINE: 1-800-832-HELP (4357)

# Other means of identification

Chemical family: metal oxides

# 2. Hazards Identification

# According to Regulation 2012 OSHA Hazard Communication Standard; 29 CFR Part 1910.1200

# Classification of the product

No need for classification according to GHS criteria for this product.

#### Label elements

The product does not require a hazard warning label in accordance with GHS criteria.

#### Hazards not otherwise classified

<sup>\*</sup> The "Recommended use" identified for this product is provided solely to comply with a US Federal requirement and is not part of the seller's published specification. The terms of this Safety Data Sheet (SDS) do not create or infer any warranty, express or implied, including by incorporation into or reference in the seller's sales agreement.

Revision date: 2014/07/15 Page: 2/8 Version: 3.0 (30322583/SDS GEN US/EN)

No specific dangers known, if the regulations/notes for storage and handling are considered.

# According to Regulation 1994 OSHA Hazard Communication Standard; 29 CFR Part 1910.1200

# **Emergency overview**

WARNING:

May cause cancer by inhalation.

Contains a suspect carcinogen.

Prolonged or repeated exposure may cause pulmonary problems.

# 3. Composition / Information on Ingredients

# According to Regulation 2012 OSHA Hazard Communication Standard; 29 CFR Part 1910.1200

This product does not contain any components classified as hazardous under the referenced regulation.

# According to Regulation 1994 OSHA Hazard Communication Standard; 29 CFR Part 1910.1200

The product contains:

<b>CAS Number</b>	Content (W/W)	Chemical name
12001-26-2	46.0 - 64.0 %	Mica-group minerals
13463-67-7	32.0 - 46.0 %	Titanium dioxide
1309-37-1	2.0 - 10.0 %	Iron oxide

# 4. First-Aid Measures

# **Description of first aid measures**

# General advice:

Remove contaminated clothing.

#### If inhaled:

If difficulties occur after dust has been inhaled, remove to fresh air and seek medical attention.

#### If on skin:

Wash thoroughly with soap and water. If irritation develops, seek medical attention.

#### If in eyes:

Wash affected eyes for at least 15 minutes under running water with eyelids held open. If irritation develops, seek immediate medical attention.

#### If swallowed:

Rinse mouth and then drink plenty of water. Do not induce vomiting. Seek medical attention if necessary.

# Most important symptoms and effects, both acute and delayed

Symptoms: The most important known symptoms and effects are described in the labelling (see section 2) and/or in section 11.

Revision date: 2014/07/15 Page: 3/8 Version: 3.0 (30322583/SDS GEN US/EN)

# Indication of any immediate medical attention and special treatment needed

Note to physician

Treatment: Treat according to symptoms (decontamination, vital functions), no

known specific antidote.

# 5. Fire-Fighting Measures

# **Extinguishing media**

Suitable extinguishing media:

dry powder, foam

Unsuitable extinguishing media for safety reasons:

carbon dioxide

# Special hazards arising from the substance or mixture

Hazards during fire-fighting:

No particular hazards known.

# Advice for fire-fighters

Protective equipment for fire-fighting:

Firefighters should be equipped with self-contained breathing apparatus and turn-out gear.

#### Further information:

Dispose of fire debris and contaminated extinguishing water in accordance with official regulations.

If exposed to fire, keep containers cool by spraying with water.

#### 6. Accidental release measures

# Personal precautions, protective equipment and emergency procedures

Avoid dust formation. Ensure adequate ventilation. Wear suitable personal protective clothing and equipment.

# **Environmental precautions**

Do not empty into drains.

This product is not regulated by RCRA. This product is not regulated by CERCLA ('Superfund').

# Methods and material for containment and cleaning up

For small amounts: Pick up with suitable appliance and dispose of.

For large amounts: Pick up with suitable appliance and dispose of.

Spills should be contained and placed in suitable containers for disposal.

# 7. Handling and Storage

# Precautions for safe handling

Breathing must be protected when large quantities are decanted without local exhaust ventilation. Avoid contact with the skin, eyes and clothing.

Revision date: 2014/07/15 Page: 4/8 Version: 3.0 (30322583/SDS GEN US/EN)

Avoid dust formation. Closed containers should only be opened in well-ventilated areas.

Protection against fire and explosion:

No special precautions necessary.

See MSDS section 5 - Fire fighting measures. Prevent electrostatic charge accumulation.

# Conditions for safe storage, including any incompatibilities

The product in undamaged packing need not be stored separately.

Further information on storage conditions: Keep in a cool place. Keep container dry.

# 8. Exposure Controls/Personal Protection

# Components with occupational exposure limits

Iron oxide OSHA PEL PEL 10 mg/m3 fumes/smoke;

ACGIH TLV TWA value 5 mg/m3 Respirable fraction;

Titanium dioxide OSHA PEL PEL 15 mg/m3 Total dust ;

ACGIH TLV TWA value 10 mg/m3;

Mica-group minerals

ACGIH TLV TWA value 3 mg/m3 Respirable fraction;

#### Personal protective equipment

# Respiratory protection:

Observe OSHA regulations for respirator use (29 CFR 1910.134). Wear a NIOSH-certified (or equivalent) particulate respirator.

# Hand protection:

Chemical resistant protective gloves

### Eye protection:

Safety glasses with side-shields.

#### General safety and hygiene measures:

Handle in accordance with good industrial hygiene and safety practice. Due to the colouring properties of the product closed work clothes should be used, to avoid stains during manipulation. Hands and/or face should be washed before breaks and at the end of the shift. Wash soiled clothing immediately.

# 9. Physical and Chemical Properties

Form: powder Odour: odourless

Odour threshold: No applicable information available.

Colour: yellow pH value: 6.5 - 11.5

Melting point: The substance / product decomposes.

Boiling point: not applicable

Flash point: not applicable, the product is a solid

Flammability: not flammable

Autoignition: Study does not need to be conducted.

Revision date: 2014/07/15 Page: 5/8 Version: 3.0 (30322583/SDS GEN US/EN)

Vapour pressure: not applicable Density: 3.1 g/cm3 (approx. 20 °C)

Relative density: 3.1

Bulk density: 219 kg/m3

Partitioning coefficient n-Study scientifically not justified.

octanol/water (log Pow):

Self-ignition not self-igniting

temperature:

Thermal decomposition: No decomposition if stored and handled as

prescribed/indicated.

Viscosity, dynamic: Study does not need to be conducted.

Particle size: D90 6 - 48 µm

Solubility in water: insoluble

Evaporation rate: The product is a non-volatile solid. Other Information: If necessary, information on other physical and chemical

parameters is indicated in this section.

# 10. Stability and Reactivity

# Reactivity

No hazardous reactions if stored and handled as prescribed/indicated.

Corrosion to metals:

No corrosive effect on metal.

Oxidizing properties: not fire-propagating

# **Chemical stability**

The product is stable if stored and handled as prescribed/indicated.

# Possibility of hazardous reactions

No hazardous reactions when stored and handled according to instructions.

The product is chemically stable.

Hazardous polymerization will not occur.

#### Conditions to avoid

No conditions known that should be avoided.

# Incompatible materials

No substances known that should be avoided.

#### Hazardous decomposition products

Decomposition products:

Hazardous decomposition products: No hazardous decomposition products if stored and handled as prescribed/indicated.

Thermal decomposition:

No decomposition if stored and handled as prescribed/indicated.

# 11. Toxicological information

# Primary routes of exposure

Revision date: 2014/07/15 Page: 6/8
Version: 3.0 (30322583/SDS GEN US/EN)

Routes of entry for solids and liquids are ingestion and inhalation, but may include eye or skin contact. Routes of entry for gases include inhalation and eye contact. Skin contact may be a route of entry for liquefied gases.

# **Acute Toxicity/Effects**

Oral

Type of value: LD50

Species: rat

value: > 2,000 mg/kg

The product has not been tested. The statement has been derived from the properties of the

individual components.

#### Irritation / corrosion

Assessment of irritating effects: Inhalation of dust may cause respiratory tract irritation, coughing and breathing difficulties. Contact with the eyes or skin may cause mechanical irritation.

#### Skin

May cause mechanical irritation.

#### Eve

May cause mechanical irritation.

# **Chronic Toxicity/Effects**

#### Repeated dose toxicity

Assessment of repeated dose toxicity: Prolonged or repeated exposure may cause pulmonary problems. The product has not been tested. The statement has been derived from the properties of the individual components.

# Genetic toxicity

Assessment of mutagenicity: Based on the ingredients, there is no suspicion of a mutagenic effect.

# Carcinogenicity

# Information on: Titanium dioxide

Assessment of carcinogenicity: IARC (International Agency for Research on Cancer) has classified this substance as group 2B (The agent is possibly carcinogenic to humans). In long-term studies in rats in which the substance was given by inhalation, a carcinogenic effect was observed. Tumors were only observed in rats after chronic inhalative exposure to high concentrations which caused sustained lung inflammation. In long-term studies in rats and mice in which the substance was given by feed, a carcinogenic effect was not observed. Dermal exposure is not expected to be carcinogenic.

#### -----

# Other Information

The product has not been tested. The statements on toxicology have been derived from the properties of the individual components. The product has been assessed on the basis of the components' available data. To some extent data gaps exist for individual components. According to our present knowledge and experience dangers which are not covered by the current labeling are not to be expected.

# **Symptoms of Exposure**

The most important known symptoms and effects are described in the labelling (see section 2) and/or in section 11.

Revision date: 2014/07/15 Page: 7/8
Version: 3.0 (30322583/SDS GEN US/EN)

# 12. Ecological Information

# **Toxicity**

Aquatic toxicity

Assessment of aquatic toxicity:

At the present state of knowledge, no negative ecological effects are expected.

# Microorganisms/Effect on activated sludge

# Toxicity to microorganisms

The inhibition of the degradation activity of activated sludge is not anticipated when introduced to biological treatment plants in appropriate low concentrations.

# Persistence and degradability

#### Assessment biodegradation and elimination (H2O)

The colourant is insoluble in water and can thus be separated from water mechanically in suitable effluent treatment plant

#### Elimination information

Not readily biodegradable (by OECD criteria).

# Bioaccumulative potential

#### Assessment bioaccumulation potential

The product will not be readily bioavailable due to its consistency and insolubility in water. The product has not been tested. The statement has been derived from the properties of the individual components.

# Mobility in soil

# Assessment transport between environmental compartments

No data available.

#### **Additional information**

# Other ecotoxicological advice:

The inhibition of the degradation activity of activated sludge is not anticipated when introduced to biological treatment plants in appropriate low concentrations. The product has not been tested. The statement has been derived from the properties of the individual components.

# 13. Disposal considerations

# Waste disposal of substance:

Must be disposed of or incinerated in accordance with local regulations.

Dispose of in a licensed facility. Do not discharge into drains/surface waters/groundwater. It is the waste generator's responsibility to determine if a particular waste is hazardous under RCRA. This product does not possess any of the four identifying characteristics of hazardous waste (ignitability, corrosivity, reactivity, or toxicity).

Revision date: 2014/07/15 Page: 8/8
Version: 3.0 (30322583/SDS GEN US/EN)

# Container disposal:

Uncontaminated packaging can be re-used. Packs that cannot be cleaned should be disposed of in the same manner as the contents.

# 14. Transport Information

# Land transport

USDOT

Not classified as a dangerous good under transport regulations

#### Sea transport

**IMDG** 

Not classified as a dangerous good under transport regulations

# Air transport IATA/ICAO

Not classified as a dangerous good under transport regulations

# 15. Regulatory Information

# **Federal Regulations**

# Registration status:

Chemical TSCA, US released / listed

Cosmetic TSCA, US released / exempt

### NFPA Hazard codes:

Health: 1 Fire: 0 Reactivity: 0 Special:

**HMIS III rating** 

Health: 1 Flammability: 0 Physical hazard: 0

#### 16. Other Information

# SDS Prepared by:

BASF NA Product Regulations SDS Prepared on: 2014/07/15

We support worldwide Responsible Care® initiatives. We value the health and safety of our employees, customers, suppliers and neighbors, and the protection of the environment. Our commitment to Responsible Care is integral to conducting our business and operating our facilities in a safe and environmentally responsible fashion, supporting our customers and suppliers in ensuring the safe and environmentally sound handling of our products, and minimizing the impact of our operations on society and the environment during production, storage, transport, use and disposal of our products.
